## NEW HOPE FOR MIGRAINE<sup>®</sup> SUFFERERS!

Doctors around the country are recommending a new product for migraines called **MigreLief<sup>®</sup>** — a simple non-prescription product that treats the underlying nutritional deficiencies that clinical studies show may play a role in migraine frequency and severity. It is starting to appear in drugstores nationwide, including several local chains (see below).

A patented combination of high dose magnesium, riboflavin, and Puracol<sup>™</sup> Feverfew (a unique herbal combination), **MigreLief** is being used by top headache specialists, headache clinics, and health care practitioners nationwide—either alone or in combination with other migraine treatments.

**MigreLief** replenishes nutrient levels, and by doing so can have a significant impact on migraine frequency and intensity. "MigreLief is a truly remarkable product! I have a very large number of patients whose headaches have improved for long periods of time on **MigreLief**," reports headache specialist Alexander Mauskop M.D., Director of the New York Headache Center.

*"I've tried everything, and nothing worked like MigreLief!"*

— JS, New York City, NY

*I have been using MigreLief for months and originally was having a migraine a week, every week, for the past 4 years. After starting MigreLief, I have not had a single one in at least 3 months!*

*"This product is phenomenal! It's*

*"The neurologists I have been seen extremely skeptical that something as simple as this would work on my headaches. Not only are they no longer a problem, I feel terrific!"*

— KW, Seattle, WA
